What factors influenced your decision to become a physician and your choice of specialty?

I wanted to excel in life while helping other people.

Did you experience a defining moment that made you feel you had become a physician?

Graduation from medical school, and the first time I was called Dr. Norton.

As you were training to be a physician, what one piece of advice was most valuable to you?

If necessary, give up pleasures for now to be able to achieve more in the future.

What is the most significant medical innovation you experienced in your years of practice?

Progressive development of antibiotics and development of the echogram and CT scan.
