

**1 out of 7 isn't just a statistic.
It's a man sitting helpless as his diabetes
develops into serious illness or death.**

47 million uninsured. It's not just a number or a graph in a report. It's people all around you. Like a friend. A neighbor. A relative. People who are suffering. And you can do something about it. One out of seven of us doesn't have health insurance, but we all have access to a voting booth. Please vote with this issue in mind. To learn more and share your voice about this issue, visit VoiceForTheUninsured.org.
